Good morning Jim,

I got a call from Nathan White at the city of San Diego last week. He is performing the completeness review. The reason for his call was to inquire about the zoning as it relates to allowable uses. I explained to him that the info bulletin allowed it. He told me that he would take it up the chain of command. Emailing so that you are aware they are discussing it internally.

That's all I know for now, but Nathan indicated he would get back to me once he had more information.

Thank you
