Good Morning Patty,

As per our phone call this morning I am providing you the links that go to what I have seen personally as the corruption that exists in Judge Wohlfeil's courtroom. I have no doubt in my mind that the 9 page 12/16/20 Minute Order he produced was nothing more than his way of cloaking what would be seen as a bought and paid for decision to allow two strip clubs to stay open while roughly 400 people are dying each day in CA and the Southern CA ICU's are currently at 0 capacity. What astonishes me is his arrogance in conflating the needs of his strip club "clients" with that of the restaurants impacted under this pandemic conditions. He knew damn well he had to make this look like a larger social issue ruling and that is exactly what he did.

As to me, my name is Darryl Cotton and I currently have Judge Wohlfeil as a named defendant in my federal case. I protest everyday in front of the state and federal courthouses to bring this judge's activities to light. I would invite you to follow these links which will give you a brief outline of what he does, my attempts to have him disqualified during trial and his complete impartiality when it comes to making the chosen party whole. You will not believe your eyes.

If you wish to meet with me, as I said I am @ 330 W Broadway between 11-1PM with the print versions of the following links:

<https://151farmers.org/wp-content/uploads/2017/10/Protest-Sign-2.pdf>

<https://151farmers.org/wp-content/uploads/2017/10/Justice-Lost-Full-Presentation-1.pdf>

<http://www.recalljudgejoelwohlfeil.org/>

I wish you luck in your challenge to that decision. If anything I'm doing can assist you in letting the public know that this was not actually a good decision on their behalf with the restaurants I will do so as I already am doing now.

Best regards,

Darryl Cotton
