- [HO-13-001 - Qualcomm BA Tower \(1 of 2\)](#) PDF

2013: Prior to Prop-64 Adult-Use Cannabis Law having been passed and Applications for Conditional Use Permits had to go through a City of San Diego Hearing Officer, those Reports were filed chronologically on the [City's Development Services Department website](#). The Hearing Officer Reports were never audio recorded. The public must rely solely on the Minutes from those Hearings. It's imperative that the Reports be accounted for in that chronological order or there is no telling for certain where a Report might be, which is unaccounted in the sequence. As can be seen here, the 2013 Reports sequencing was perfect with ZERO unaccounted Hearing Officer Reports.

#### Missing 2014 HO Reports

HO-14-063  
HO-14-064  
HO-14-073

2014: The City began accepting Medical Cannabis Applications which to be approved, had to go through a City of San Diego Hearing Officer. Those Reports were filed chronologically on the [City's Development Services Department website](#). The Hearing Officer Hearings were never audio recorded thus the public must rely solely on the HO Reports and the Minutes from those Hearings. It's imperative that the Reports be accounted for in that chronological order or there is no telling for certain where a Report might be, which is unaccounted in the sequence. As can be seen here, the 2014 Reports sequencing was less than perfect with THREE unaccounted Hearing Officer Reports.

Missing 2016 HO Reports  
HO-16-005  
HO-16-008  
HO-16-068

2016: These Reports were filed chronologically on the [City’s Development Services Department website](#). The Hearing Officer Hearings were never audio recorded thus the public must rely solely on the Reports and the Minutes from those Hearings. It’s imperative that the Reports be accounted for in that chronological order or there is no telling for certain where a Report might be, which is unaccounted in the sequence. As can be seen here, the 2016 Reports sequencing was less than perfect with THREE unaccounted Hearing Officer Reports.

The HO-20-002 HO Report was mistakenly put in the 2019 file by DSD. It has not been taken as a missing report in the 2020 attachment.

2019: These Reports were filed chronologically on the [City's Development Services Department website](#). The Hearing Officer Hearings were never audio recorded thus the public must rely solely on the Reports and the Minutes from those Hearings. It's imperative that the Reports be accounted for in that chronological order or there is no telling for certain where a Report might be, which is unaccounted in the sequence. As can be seen here, the 2019 Reports sequencing was perfect with ZERO unaccounted Hearing Officer Reports.

Missing 2020 HO Reports  
HO-20-047

2020: These Reports were filed chronologically on the [City's Development Services Department website](#). The Hearing Officer Hearings were never audio recorded thus the public must rely solely on the Reports and the Minutes from those Hearings. It's imperative that the Reports be accounted for in that chronological order or there is no telling for certain where a Report might be, which is unaccounted in the sequence. As can be seen here, the 2020 Reports sequencing has ONE unaccounted Hearing Officer Report.

#### Missing 2023 HO Reports

HO-23-030  
HO-23-053  
HO-23-055  
HO-23-056

Of note: This is the first year where the Reports are not in sequential order. This makes it very difficult to find something that is not there. Why this change to random posting is concerning when you factor all the HO Minutes that are missing over the course of 30 months.

2023: These Reports were filed chronologically on the [City's Development Services Department website](#). The Hearing Officer Hearings were never audio recorded thus the public must rely solely on the Reports and the Minutes from those Hearings. It's imperative that the Reports be accounted for in that chronological order or there is no telling for certain where a Report might be, which is unaccounted in the sequence. As can be seen here, the 2023 Reports sequencing has FOUR unaccounted Hearing Officer Reports.
