The facts are that many politicians, elected officials and at least 2 DEPUTIES were protection the operation that stretched to several States, from Local to State and other officials. This matter was handled in my personal opinion handled very poorly. SLO PD did have the Condo under surveillance two days too late after he was found deceased by his Girl Friend. She now holds the keys to cars, bank accounts, property and jewelry along with other very valuable items in no less than 4 States, Colorado, Northern California, Oregon and Nevada along with much more.

Too place assets from Helios to V. Garica was a dumb idea, this is so much bigger than any of you know. The amount of Cash is mind boggling. Their are more than 75 different LLC's, LLP's, LP's and Incorporation's. I realize the Federal Authorities are getting many people to turn State's and Federal WITNESSES, too protect there own Ass's less you all forget people are mysterious dead.

Not Over Dose but simple planting of dangerous fatal narcotics in drinks and Cocaine that are and were deadly to no less than 4 people who all " Overdosed" case closed what a sham and cover up. Several of his very close former friends and associates have moved to other States and Cities, Helios is far deeper involved in many Criminal groups that are very dangerous. Any death or loss of innocent life is a tragedy.

Do Not be fooled or mislead by fake and bogus O'D's it is pure and simple killing of snitches and informants. Many have decided to cooperate with Legal Authorities to save themselves, one local financial institution laundered cash for kick backs and bribes one person did NOT FILE as mandated by Law an official SARS report to the US Treasury. I pray that no one else is suddenly found "Dead" due to a fake OD, but the people involved are high profile and very Organized.

Anyone who knows the facts and truth please tell the FBI, DEA and IRS this is a scar on the community. H. Dayspring's hide plenty of cash that will never be turned over to the FBI or IRS, too many well educated and high placed officials are in a world of hurt if those who are now cooperating and turning in there own friends, partners and others.

Retained out of town people were paid to come and silence those who have talked, and talked too much. I understand that no one wants to go to Prison and forfeit illicit donations, payments off the books but it did and continues to happen.

I Plead with those who were at the Party to come forth and tell the FBI the truth and make a deal to end this local corruption and illicit conduct.

I can say without any reservation, that there were murders, in this bribery mess, Cal Coast News is the only one who has it correct so far. As a former associate of both H.Dayspring and Sean who is now deceased due to his willingness to spell the facts to the US DEA and CID at the IRS.

Odd thing is our Mayor has now lawyer-ed up as well as several others, this Corruption mess is much deeper than most know, I was a friend of several of the partners and now deceased associates. Sean's Dad Steve said he was told to tell everyone who asked what happened to his Son, Sean Despain to tell people he died of a Heart Attack. As Sean was a close friend and former associate of our many people. I will not reveal my real name as we are concerned of threats and being Killed.

Sean died at his Condo at 3055 Garibaldi Ave., San Luis Obispo on 7-23-20 at a going away party as he was in fact going to reveal the entire corruption in town, some of the people in attendance besides his girl friend who found him and now she lives their as she recently found a "Will" giving her all rights to his assets and home, BMW's cash, Jewelry and so much more.

She was NOT PROPERLY INVESTIGATED, thus lawsuits are happening to see who really "KILLED" Him for Helios so he would not reveal the bribes, payoffs, and movement of large sums of money and more. As I was spoken too by the FBI PUBLIC CORRUPTION UNIT AS WELL AS CID AGENTS AND ONE US ATTORNEY.
