Total: 204

All statistical Information contained in this report was derived from the City of San Diego PRA No 23-2768 Document Production given in response to that request.

As can be seen by this report, since 2018 there has been an increase in the amount of injuries associated with the increased number of accidents that have occurred in the vicinity of the Originals Dispensary located at 6220 Federal Blvd. San Diego, CA 92114. Not all of 85these accidents and injuries may be directly attributed to the addition of this one business, but when one considers the amount of fast moving traffic that moves East and West on Federal Blvd. the fact that the 6220 property was approved by the City of San Diego Development Services Department without a traffic plan that would take into consideration not only the volume of traffic that must navigate parking for the Big K Market, East of Originals, but the Tire Store West of Originals, the lack of parking and ease of entrance into Originals parking lot, the bright lights mounted high up on the East and West facing exterior walls, the fact that Mallard and Oriole streets feed Federal Blvd. from a stop light approximately 500 ft. East of Originals, Winnett St. access to Federal Blvd., is via a stop sign. Drivers wanting to head West on Federal have to navigate past East bound traffic on Federal then, while looking into the glaring lights that come from Originals, try and make it safely into a West bound Federal Blvd. lane where traffic from the East is usually in a hurry to get to the Hwy 94 on ramp. This is all a recipe for the disasters these numbers foretell. And these totals are only through May of 2023. How someone has not yet been killed here is just sheer luck and the grace of God.

When one takes the 2018 injury total of 5 and factors to the number of recorded injuries, 199 between 2019 and May 2023, this is a 3,880% increase in injuries. This is completely unacceptable and we are not even at the halfway mark for the year! If this keeps tracking in this direction, 2023 will bring us another 40 injuries. Would this happen if we were in La Jolla? The 6220, Originals Dispensary was a sham approval by the Development Services Department. In particular it was Senior Project Manager Firouzeh Tirandazi and Project Manager, Cherlyn Cac who fast tracked the Originals project, that under normal circumstance would not have qualified (traffic impact plan and parking being one such hurdle. The other would be the Cuddles Academy Childcare facility you can see on right hand side of the aerial image. Cannabis dispensaries are not supposed to be within 1,000 ft of childcare facilities. Originals is located within 1,000 ft. of not one but TWO childcare facilities), under the original site developer Aaron Magagna.

This community has been taken advantage of again! You are being robbed by those who are in both elected and appointed positions. I just want people to know that some of us have been paying attention to your shenanigans. That you can live in Rancho Santa Fe (Tirandazi) and sell out the District 4 community just because you lack ethics and your duty to the community is not going to be forgotten.
